DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-18 are rejected under 35 USC §112, 2nd paragraph. This rejection is set forth in the prior Office action mailed on March 24, 2006.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 USC §102(b)/103(a). This rejection is set forth in the prior Office action mailed on March 24, 2006.

Response to Arguments

3. Applicant's arguments filed on June 21, 2006 have been fully considered but they are not persuasive.

With regard to the 112 rejection, the amendment does not overcome the rejection, because as explained in previous action, there is no previous indication that the additive has more than one component and therefore the phrase “from individual components...” lacks of sufficient antecedent basis.

Regarding the 102(b)/103(a) rejections, applicants arguments are not convincing, because it has been the examiner contention that if the papermaking pulps contain the same

components, then it must be assumed to have the same properties and therefore, the net change of opacity would be the same as claimed. Applicants have not provided any evidence of the contrary nor have provided arguments of why this is not possible, i.e., why the pulps properties of the cited references would be different than the claimed pulp if they have the same individual components.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
